

KING JAMES VERSION USAGE IN THE VISUALIZED BIBLE SERIES

The Visualized Bible Series was developed and written for use overseas. The version of the Bible that was used is the King James Version. However, because people overseas reading English as a second language might find the language of the King James Version difficult to understand, Bible Visuals International changed a few words in some of the memory verses that are printed on the back or inside back covers of certain volumes. In no way has the doctrinal position been altered by these changes.
